## The CNG Service Difference Starts with Our People

We build more than just CNG fueling systems - we build lasting relationships by listening to our customers and learning about their unique business needs, then proactively communicating each step in a customized service solution to deliver leading reliability and uptime.

### Customizable Service Plans

- Diagnosing and correcting potential problems
- Handling of all service calls from drivers and operators
- Quick response dispatching through our nationwide network of experts
- Follow-up to confirm customer satisfaction
- Scheduling regular preventive maintenance
- Training owner/operator technical personnel
- 24/7/365 remote station monitoring by trained CMD personnel
- Mobile monitoring

### Convenient Parts Ordering

- Our goal is to minimize your downtime
- Quick delivery of critical spare parts
- Easy parts ordering and knowledgeable advice

## You and Your Customers Deserve Uninterrupted Fueling

CMD understands that time is money, and we design our equipment to consistently and efficiently deliver CNG fuel - every fill-up, every time.

CMD systems outperform competitors under severe cold weather conditions.

### Markets and Applications

CMD offers a variety of CNG fueling solutions including **Virtual Pipeline, Mother-Daughter Stations, Pressure Reduction Systems, Pressure Boosters, Fast and Time-Fill Dispensers, and Defueling Solutions.**

We serve these and other markets:

- Construction Vehicles
- Waste Haulers
- Municipal Vehicles
- Taxi Fleets
- Delivery Vehicles
- OTR Truck Fleets
- Bio Fuel: agriculture and landfill

CMD has experience packaging a variety of compressor brands including GE, Sauer and Ariel. **Each system features PLC controls, inlet gas dryers, and ASME Storage Vessels.**

Ergonomic & Efficient

### Our Enclosures Make the Difference!

- Ergonomically designed for comfort and safety.
- Open access and elbow room for quicker repairs and maintenance.
- Hot and cool components are clearly marked and separated for enhanced safety.
- Sturdy landing decking and open design keeps components within easy reach.
- Decking is easily removable for access to piping beneath it.
- Explosion-proof courtesy lighting enhances visibility.

### Scalable Systems!

- Models range from 40 hp to 400 hp with output of 26 to 550 gallons per hour.
- Modular 50CGS and 100CGS compressor systems simply bolt on to existing systems as your site grows.
